

Stiga Multiclip 50 Plus

A lawnmower with the effective Multiclip system.

The Multiclip system cuts and fertilises the lawn. It also makes the lawnmower quieter. You don't need to rake or empty a collector. You cut the grass about 30 % faster compared to collecting.

The lawnmower has a foldable Ergo-handle with steel levers and wheels with double ball bearings. The cutting deck is galvanized which gives a better protection against rust. Cutting width is 48 cm.
