

Stiga Multiclip Pro 50 S Svan

A new self-propelled professional lawnmower with the effective Multiclip system.

The Multiclip system cuts and fertilises the lawn. It also makes the lawnmower quieter. You don't need to rake or empty a collector. You cut the grass about 30 % faster compared to collecting.

The lawnmower is designed for professionals or others who want the best. Professional features are for example, low vibrations which means that you can work a full day without white fingers, a very sturdy deck and wheels in aluminium, adjustable handle for cutting close to walls, central height adjustment and a friction blade holder that protects the engine if you hit solid objects.

Cutting width is 48 cm.

Certified with the SVAN label as an environment friendly option.
