

Stiga Turbo Pro 55 4S Combi

A handy aluminium lawnmower with collector. The versatile lawnmower is self-propelled and is working as three machines in one.

Stiga Turbo has long been regarded as one of the best collecting lawnmowers on the market. The model can also supply other needs. When you need to work through really high grass you just drive without the collector. Easily insert a plug and the lawnmower can also be driven in Multiclip mode. You don't have to rake or empty grass. Mowing is quieter and you fertilise the grass at the same time.

The lawnmower is very well equipped with unique and very efficient Anti Vibration System, friction blade holder, foldable handle with comfortable levers, a sturdy aluminium deck with a 20 years warranty* and central height adjustment. The 4-Speed function gives you four different speed alternatives from 2,9 to 4,5 km/h.

Cutting width is 53 cm.
